Kori Umemura

fullstack developer
Osaka
imameugenau2k@gmail.com
+81 3 2911 7917

After graduating from university, I entered the IT world.
From writing web programming to writing mobile programming, I have
devoted a lot of time to learning various skills.
From 4 years ago, I entered the blockchain world.
I am focus on developing smart contracts on Ethereum, Polygon, BSC
and Solana Chain with solidity and rust language.
Blockchain has become a part of my life now.
I am looking for opportunities to work talented team or company.
I hope to learn more and to become a famous person like Satoshi.
